Chiens et chats

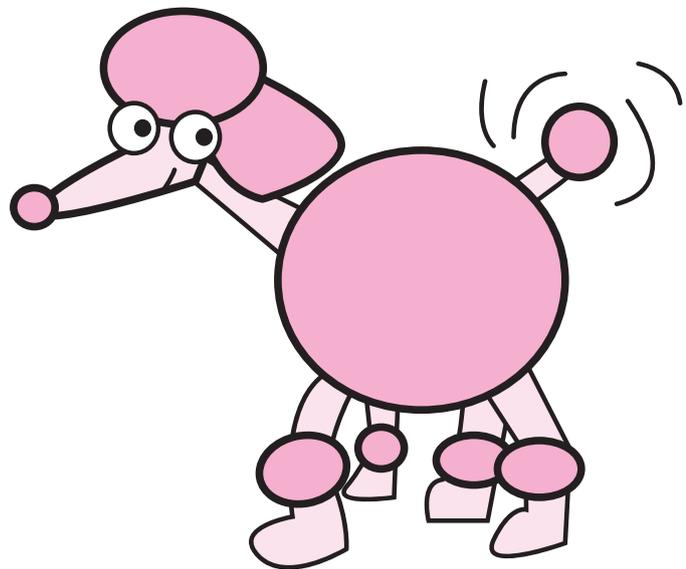

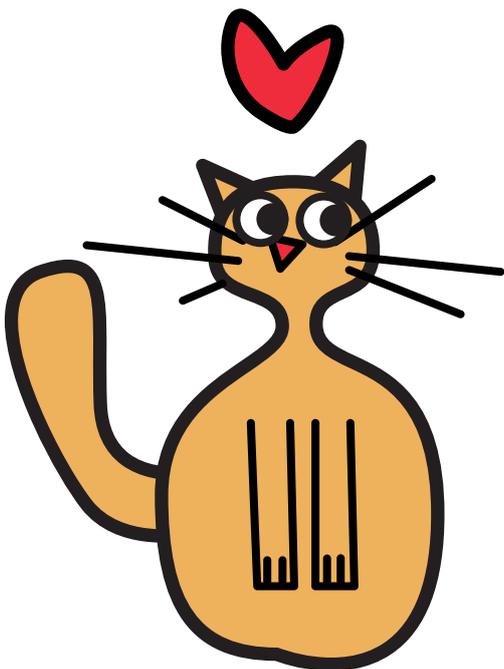

## Chiens et chats

### Qui sont les chiens et les chats ?

Les chiens et les chats sont des **animaux domestiques** qui sont très mignons surtout quand ils sont bébés. Ce sont des animaux poilus très doux qui **aiment les caresses de leurs maîtres**.

Le chien est à la fois un animal de travail (grâce à son flair) et un animal de compagnie alors que le chat est essentiellement un animal de compagnie.

Et toi, as-tu un chien ou un chat ?
